Introducing Our All New ELECTRIC PRECISION LEAF

Benefits of our Electric Leaf Loader

- A much quieter and more efficient loading system
- Eliminates fear of contaminating tobacco with hydraulic oil
- Easier and less expensive to maintain, which reduces downtime
- Operates with single or three phase service, eliminating all power issues
- In addition, a 16' Transition Conveyor makes for easier and faster loading, allowing for faster turn around of trailers
- The Transition Conveyor dramatically increases productivity of

Our other Tobacco Leaf Handling Equipment:

- Live Bottom Boxes for your Harvesters
- Live Bottom Trailers in lengths of 24' or 32' with custom sizes available
- Dry Leaf Cleaning Systems
- Buses with Live Bottom Inserts
- Bin Scales, Power Packs and more

COMING SOON ~ A newly designed, faster, and more efficient tobacco baler
